INDIANA UTILITY
REGULATORY COMMISSION

CAUSE NO. 41657

You are hereby notified that on this date, the Indiana Utility Regulatory Commission has caused the following entry to be made:

In order to expedite the IURC's final review of SBC's draft pre-application for Section 271 approval and to assist the United States Department of Justice (DOJ), the Federal Communications Commission (FCC), and other parties in their review of SBC's forthcoming Section 271 application before the FCC, SBC shall file with this Commission, in this Cause, by July 18, 2003, a complete price list containing all rates and charges on which SBC is relying for its Section 271 application for the following:

- All UNEs and UNE combinations
- All interconnection, collocation, and resale arrangements
- All reciprocal compensation /transport and termination arrangements

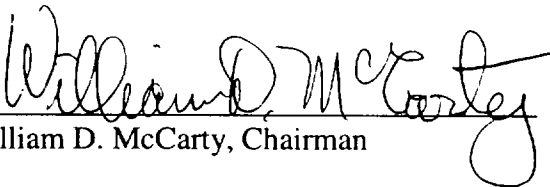

Although we have told SBC Indiana to file a current price list on several occasions, we have yet to receive what we ordered. In its proposed order in this Cause, SBC included only a partial price list appendix, titled "**SBC INDIANA - CAUSE NO. 40611 - S1 Phase 2 - 2/17/03 RATE CHANGES**". SBC did not provide any prices not included in "Cause No. 40611-S1 Phase 2 changes."

In preparing this complete price list, SBC should follow our previous instructions on May 9, 2003, with the following additions. SBC Indiana shall add two columns on the right-hand side of the price list, in addition to providing the information previously requested on May 9. In the first additional column, SBC shall show for each rate element a citation to the applicable tariff, catalog, or interconnection agreement supporting the rates and charges shown for the particular rate element in question. In the second additional column, SBC shall show for each rate element citation to the applicable IURC order or docket entry and the applicable FCC order or rule supporting the rates and charges shown for the particular rate element in question.

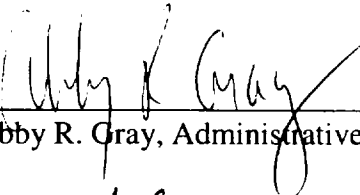

Given the voluminous record in this proceeding, and the even more voluminous record that we anticipate in the forthcoming federal proceeding, it is imperative that we, as well as the FCC, the DOJ, and all parties have complete and accurate information regarding all applicable

rates and charges and the legal and/or regulatory requirements that SBC believes support those rates and charges.

IT IS SO ORDERED.
